Product size	325 × 85 × 210 mm
Noise	≤ 40 dB
Filter type	Washable cotton

Electrical

Voltage	220 VAC, 50 / 60 Hz
Power consumption	7W

Ionisation tube

Quantity	1 Glass DBD bipolar ionisation tube
Size	200 mm
Estimated tube life	17,000 hours

Warranty

Warranty	2 Years Unit, 1 Year Ionisation Tube
----------	--------------------------------------

Fragrance dispensers only mask unwanted smells and require constant refilling. The MiniPro-3 uses bipolar ionisation to help reduce persistent urine, body and other odours in toilets, guest rooms, clinics, nursing homes, pet shops, offices and other enclosed spaces — without relying on fragrance.

The MiniPro-3's Bipolar Ionisation unit is designed to be wall mounted in your toilet, clinic, public area or guest room to quietly eliminate those odours, including Ammonia, and Hydrogen Sulphide, tobacco and foods. The output control allows you to adjust the ionisation level as needed to neutralise them. The MiniPro-3 is UL2998 Certified - NO OZONE
