

PurAire LiftPro-1

Bipolar Ionizer for Lifts or Small Spaces

Bipolar Ioniser for Lifts, Toilets, Small Spaces of up to 15 SqM

Product information

Air volume	15 m ³ /h
Treatment area	15 m ²
Shell material	Aluminium Alloy
Weight	300 grams
Product size	185 × 100 × 60 mm
Noise	≤ 30 dB
Filter type	None

Electrical

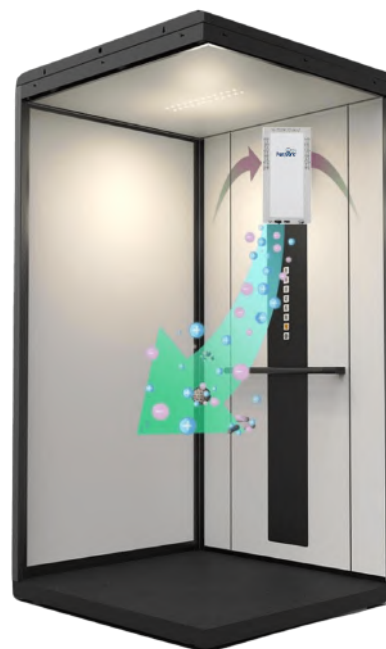

Voltage	12 or 24VDC
Power consumption	6W

Ionisation tube

Quantity	1 Glass DBD bipolar ionisation tube
Size	60 mm
Estimated tube life	17,000 hours

Warranty

Warranty	2 Years Unit, 1 Year Ionisation Tube
----------	--------------------------------------

The PurAire LiftPro-1 is the compact option for standard passenger lifts and smaller enclosed spaces. Its small wall mounted design provides continuous bipolar ionisation and helps reduce or eliminate body odours, food smells, tobacco related odours, mustiness and other persistent odours inside your lift or office.

The PurAire LIFTPRO-1 Bipolar Ionization unit is designed to eliminate the need for those ineffective wall mounted fragrance dispensers that attempt to mask or cover up those odours.

The LiftPro-1's airflow over the ionization tube produces powerful bipolar oxygen ions that flow into the space and silently saturate that space with those ions, providing constant and effective odour removal and air purification.
